

Gambling Offers Substantiation Form

This form has been created to help agencies compile the necessary information and legal assurances needed for clearance of gambling advertisements (betting, bingo, gaming) which feature offers. It is designed to cover the majority of eventualities in any advert, however if you're unclear about anything please contact your Clearcast contact who will be happy to assist.

New Advertisers

If the advertiser HAS NOT advertised on TV before, please supply a separate copy of their gambling licence in the substantiation area of the CopyCentral submission. Since November 1 2014 only operators licensed with the Gambling Commission have been permitted to advertise on TV in Great Britain. The Gambling Commission's register of licensed operators is [available here](#).

Please also provide the **general T&Cs** of the company, in the substantiation area.

Superimposed text

All ads will require at a minimum the following supers: **18+** www.gambleaware.co.uk

Your Clearcast contact will advise you on what supers you may need, depending on the T&Cs of your offer. Size and duration info can be found here.

Supers must come on at the same time as the offer/claim that they are qualifying, so that it's clear what they refer to.
